

# 01B2

## ELECTRIC LIFTING AND LOWERING

Mod. **01B2** is a heavy-duty counterbalanced workshop crane (built-in ballast weights) with a **360°** pivoting arm, suitable for handling industrial equipment up to **200 kg** in line with Safety international standards. It comes with a pendant control station for electric lifting and lowering of the jib, and an emergency button.

The crane is fitted with traction battery and battery charger.

Easy to move, thanks to its high capacity pivoting wheels fitted with foot brakes. Jib is extendible in 4 positions. Because of its light- capacity, this model does not require inspections by certified Boards under Directive 2006/42/CE.

Optional jib extension is available to increase the crane maximum reach up to **1360 mm** (at 71 kg capacity).

Technical data 01B2		
Weight	[kg]	430
Max capacity	[kg]	200
Max pressure	[BAR]	100
Power	[W]	300
Tank capacity	[L]	2

Cylinder		
Stroke	Ø	Ø Stem
[mm]	[mm]	[mm]
470	60	30

Outreach with standard jib		
Position	Length	Capacity
	[mm]	[kg]
1	455	200
2	590	170
3	725	150
4	860	130

Outreach with extension jib (optional)		
Position	Length	Capacity
	[mm]	[kg]
1	955	92
2	1090	85
3	1225	78
4	1360	71

Battery (1x Traction type)	[V]	12
	[A]	80
Battery charger	[V]	220
	[A]	12

High frequency battery charger, switching technology with noise filter complies with EMC regulations.
