

Lifters with Electric lifting crane

GE750

Innovation | Compactness | Agility

GE750

GE750 is an innovative lifter with electric lifting crane that can safely handle up to **750 Kg** using the certified lifting hook. Thanks to the electronic safe indicator and tilting moment limiter the lifting operation is carried out in full safety conditions because the system immediately adjust the maximum extension of the crane arm depending on the weight of the load. Other technical features like the mast with full free lift system and the cantilever crane arm make this unit unique on the market and suitable for all kind of industries.

- ⊕ CE Certified
- ⊕ Maximum maneuverability
- ⊕ Intuitive and easy to use
- ⊕ Safe electronic load limiter
- ⊕ Suitable for all kind of industries
